SENATOR CLARK: These are clarifying amendments really. On page 8 deleting the paragraph removes the requirement for maintaining and conducting an annual inventory. This removes part of the fiscal impact of the bill. It was thought that on page 9, that the present wording was a little too broad and could be interpreted to include the power companies. We're moving this to correct that fact too. On page 10 by inserting the phrase "as far as practical" it gives the state room in which to operate. This removes the requirement that consolidation be done tomorrow. It also removes the rest of the fiscal impact. On page 14 the state presently owns some shorthand facilities, that's a pair of wires running from a transmitter to a tower. This requires the state to continue ownership of any facilities such as that that they have. I move for the amendments please.
